<https://github.com/Fayizamp>

A dedicated and hardworking individual with a recently completed Bachelor of Computer Applications (BCA) degree, showcasing strong skills in HTML, CSS, and JavaScript, along with basic knowledge of C, python and MySQL. Currently focused on becoming a Full Stack Developer. Passionate about web development and committed to continuous learning and growth in the field. Aims to apply problem-solving skills and technical knowledge in a dynamic IT company, contributing to innovative projects and impactful solutions.

## Projects

### EduLien - College Management System

- Developed "EduLien," a comprehensive college management system as an Android application. Designed and implemented the students' module, which includes features such as student enrollment, course management, and grade tracking.
- Used Java and Android Studio for mobile app development.
- Integrated MySQL for local database management, ensuring efficient data storage and retrieval on mobile devices.

### Portfolio Website

- Created a personal portfolio website to showcase projects and skills using HTML, CSS, JavaScript, and Bootstrap.
- Designed a responsive and visually appealing layout that highlights my work and achievements.
  - Implemented interactive features to enhance user experience, including animations and dynamic content loading.
- Ensured cross-browser compatibility and optimized the website for various devices.
- Included sections for project descriptions, skills, contact information, and an "About Me" page to provide visitors with a comprehensive understanding of my background and expertise.
